PROFILE

Senior frontend engineer with a **UX Master Certification** and 9 years building from simple views to full **BFF systems**. I care as much about the DX of engineers using my code as the users at the end of it — track record of leading migrations, building component platforms, and shipping at scale.

EXPERIENCE

Design Pickle

Senior Frontend Software Engineer

Sept 2024 - Apr 2026

- Led full frontend migration from legacy Rails-served React to **Remix / React Router 7**, balancing active feature dev by prioritizing high-traffic pages and rewriting complex components in-flight
- Set up CI/CD workflow to publish **Storybook** implementations of both legacy and new applications, improving design-engineering alignment across teams
- Released new project management features end-to-end alongside numerous bug fixes
- Improved test coverage and code readability across the codebase

Xerosec LLC

Lead Frontend Engineer

Jan - May 2024

- Designed, built, and released a new frontend for a script sharing platform using an **NX monorepo** and component library documented with Storybook
- Integrated OAuth2 with Azure B2C; built CI/CD pipelines with **GitHub Actions**

Bill.com / Divvy

Software Engineer II

Oct 2022 - Dec 2023

- Created new budget tools including policy management and import functionality for budget groups serving **461K+ businesses** controlling over **\$4B in TPV**
- Greatly improved test coverage and code readability; migrated legacy JavaScript monorepo to new federated **TypeScript** repositories

Walmart Global Tech

Ignite Extern → Associate Software Engineer

Nov 2016 - Sept 2022

- Designed and built the full frontend for an **emergency alerting platform** commissioned by Walmart's EOC after El Paso — mass notifications for active shooters, severe weather, and COVID exposures
- Created an admin UI for an internal notification platform integrated into **200+ business-facing mobile apps**; role-based access system serving both dev teams and business users
- Maintained Apple code signing for all internal iOS apps — hundreds of certificates and **600+ provisioning profiles**
- Applied UX practices to documentation shared with thousands of associates; collaborated with **AI & ML team** on a mobile data-entry application; contributed to Node.js and Java Spring APIs
- Managed deployments to hybrid on-prem/Azure infrastructure; built **Jenkins CI/CD** pipelines
